Are You A Returning Applicant? Yes No

Home Computers for School-Age Children

Only \$35; no student is turned down
Every Child Qualifies! No Income Guidelines!

Dear Educators and Parents: Computers for Kids Inc. is a non-profit 501(C)(3) organization that donates computers to students throughout the state of Idaho. We would like to help your students receive a home computer of their own. Every child qualifies, there are no income restrictions. To apply, complete the application form (see reverse side), include a one-page essay written by the student on why they would like to have a computer for their school work, and submit the \$35 processing fee. The order form below is for software CDs – the child should pick one in their favorite subject and the other to assist with a difficult subject. Additional software CDs may be purchased for \$10 each. Additional computer components can also be purchased at low cost as indicated on the application. If you have any questions, please contact us at 345-0346. We are happy to report that last year we distributed nearly 2000 computers to students in the state of Idaho. We hope to provide 3000-4000 computers to students this year.

SOFTWARE ORDER

Please **Circle Order Number** of item/items you would like to order.

First 2 Educational Software is FREE! If you would like to order additional software, the cost is \$10.00 each.
